Sir:

Under the provisions of 35 U.S.C. §254, Patentees request that a Certificate of Correction be issued to make the correction indicated on the attached Form PTO-1050.

It is apparent that the mistake was incurred through the fault of the PTO, as clearly disclosed by the records of the Office. This is apparent from a comparison between the title found on the patent and the title found on the first page of the specification as well as on the Transmittal Letter filed with the PTO on August 17, 2001.

Under the circumstances, Patentees respectfully submit that the instant request is proper, and that a Certificate of Correction should be issued to make the indicated change.

Respectfully submitted,

Takaaki MAEKAWA et al.
